

H&M is in Midlothian

Ash Grove Project Midlothian, Texas

H&M Company, Inc. was recently selected by FLSmidth to provide balance-of-plant (BOP) and design services for Ash Grove Cement Company's conversion project in Midlothian, Texas.

The project consists of converting one of Ash Grove's existing wet process kilns to a preheater, precalciner kiln. This conversion will reduce Ash Grove's carbon footprint by lowering the amount of emission and energy consumption.

FLSmidth is providing the equipment, systems and services. H&M's scope of work not only includes BOP and design services, but also concrete installation, rebar fabrication, mechanical/structural erection, steel fabrication, platework fabrication and electrical/controls installation all by in-house H&M companies.

We are excited about this project and we are excited to team together again with FLSmidth and Ash Grove Cement.

Celebrating 130 years of operations in 2012, the Ash Grove Cement Company (www.ashgrove.com) has distinguished itself in the cement industry with a strong and longstanding tradition of service, reliability and quality. As the largest American-owned cement company, Ash Grove has the capacity to produce more than 8 million tons of cement annually from eight cement plants located across the country and to distribute through more than 20 cement terminals, ready-mixed concrete, aggregates, packaged products and paving operations.

FLSmith was founded in 1882 by Frederik Læssøe Smidth and today FLSmith (www.flsmidth.com) is listed on NASDAQ OMX Copenhagen. It is FLSmith's vision to continuously strengthen its position as the preferred partner and leading supplier of equipment and services to the global cement and minerals industries. FLSmith provides equipment, systems and services for the cement and minerals industries.

H&M Company is a national design-build firm headquartered in Jackson, Tennessee with offices in Nashville, Phoenix and Richmond. To learn more about H&M please visit our website or contact Roger Cook, Greg Kelly or Michael Eidson.
